
BACK IN THE BLACK BOOTCAMP

PART THREE: MASTERING THE MINDSET

When I was 14, I left my hometown with nothing but \$200 in my pocket (okay, and a few bags of clothes - girl needs her shoes!)

Two years later, I had a whopping \$18k in my savings account.

And today, I run not one, but two thriving businesses.

Obvi, I'm the kinda chick who makes shit happen.

Hi, I'm Maria Hinton and I'm THE money mindset coach for women entrepreneurs who're ready to get up, get going and get back in the black (translation? making that money, honey).

A former financial planner and social worker (I know, right?), I'm a business-minded humanitarian who is crazy-passionate about helping women get real about their money blocks, get clear on their desires and learn how to own their worth so they can make more bucks in their biz.

But how did I get here, you might ask?

One word: Mindset.

I've always been willing to do what I needed to survive – including busting out of my toxic hometown at 14, graduating high school early at 16 and stealing food to feed my face when I had to in between.

I take care of my headspace like nobody's business. Since I left home and lived on my own from 14 onward, I learned quickly that I needed to learn how to take care of ME – 'cause nobody else was gonna do it for me.

I discovered early on that the way I spoke, the way I thought and therefore, the way I acted - all impacted how good I felt about myself – and also how good the experiences were that I attracted into my life.

When I had my mind right, Job opportunities cropped up outta nowhere. I always found a way to take care of myself. And within 2 short years, I had turned that \$200 into \$18k.

I was manifesting without knowing it. I made it work.

But here's what I know now: Not everybody knows how to handle their money mindset like I did so naturally.

I see TRUCKLOADS of people struggle with finances day in and day out, simply because they don't understand the basic rule about money:

YOU are the ONLY ONE in control of how much money you have or don't have.

So, I decided to do something. I started as a financial planner, but the budgeting and other tools were really only half the battle. What I really wanted was to be the one in the trenches helping real women manage the other, more important part of the equation: the mindset.

And the rest, as they say, is mother-effing history.

What else do you need to know about me?

:: **I've worked in the financial industry since 2004.** I have formal education in Financial Planning, but decided to make the shift out because I felt it was only a bandaid solution for a bigger issue: money blocks.

:: **I'm a Mama Bear-type.** I'm a no-nonsense, no-excuses, not-gonna-hold-your-hand-kinda girl. But I also have a huge heart – and if you give me your all, I'll give it right back.

:: **I was a Social Worker for three years.** That's where the loving mama bear comes in. Only problem? It just wasn't for me.

:: **I also run an all-natural and organic luxury bod product biz www.duchessofsuds.com.** It started as a hobby – and then sales went through the roof.

:: **I'm a (blended) family woman.** I have four kids - Daniel and Niko from my husband's previous relationship, Alesandro from my previous relationship and our shared son, Luka. Having a blending family has taught me sooooo much - about patience, understanding, acceptance and compassion.

:: **I'm a huge lover of food.** I am completely and utterly obsessed with poutine and deep fried pickles!

Welcome to **Back in the Black Bootcamp!** So stoked that you're here. I promise you, this three part series is busting at the seams with practical steps and tips, to start renewing the woo between you and your money.

MINDSET: YOUR KEY TO SUCCESS

What is a mindset?

A mindset is an established set of attitudes that is held by a person.

For example:

A business owner entrepreneurial way of thinking.
Believing that you are in capable of being financially secure.

What are some of the attitudes that you hold surrounding money?

FIXED MINDSET VS. GROWTH MINDSET

What is a fixed mindset?

A person who has a fixed mindset believes their basic abilities, their intelligence, their talents, are just fixed traits. They believe that they cannot develop their skill and knowledge in a particular area.

What is a growth mindset?

A person with a growth mindset understands that their talents and abilities can be developed through effort, good teaching and persistence.

Exercise: Your Logic

Write a list of all the reasons why you think you can't have abundance in your life. You might notice you blame external circumstance or a fixed way of 'this is how I am'. They may be true, however this exercise is to help increase awareness of these internal beliefs. Here is an example of what I thought for many years: I can never pursue my dreams, because I have a family to take care of. Although it was true that I did have a family to care for, it was untrue that they were preventing me from following my dream. It simply was a bullshit excuse. The reality is, reasons are not necessary real. It is important to identify which are valid and which are not.

Take Action

1. Write down all the reasons why you can't live a life of abundance.
2. Now come up with three countering statements for all of the bullshit excuses.

For example:

Excuse: Being successful means I will have to work a lot and I will never see my family.

Counter Statement: Many people who are wealthy don't even work *at all*.

Reflection: Analyzing Your Logic

If you have not discovered this yet, **reasons** are simply made up by a brain that is designed to have us endure and stay cozy. We have complete power to walk down a new path. Several studies have shown that gratitude and shifting to a positive mindset increases happiness, health and wealth.

Let's shift into a mindset of looking for the things you absolutely **ROCK** at, and where in your life you are abundant. This exercise is designed to start a new phase of a healthy mindset, and give you a little self-esteem boost. Honestly you are amazing. It's time for you to know it!

Take Action

1. Write a list of 25 things that you kick butt in. If you feel stumped, ask friends and family to tell you some of the things they admire about you most.
2. Complete exercise **Why Not to Heck Yes**.

Exercise: Why Not to Heck Yeah

Now we are going to apply your list of strengths to your reasons. Observe for a moment and look at all the things you **rock** at. You are absolutely brilliant. See how you can use them to your advantage to reverse those why not's from the first list into **Heck Yeah's**.

Take Action

1. I'd like you to come from a place of fascination and curiosity. "What if I COULD?" Coming from this open space, begin to write down the reasons why you CAN have the results you want. This does require some creative thinking. Have fun and dream as big as you can. Notice the ease and openness of this exercise.

Exercise: Money Affirmations

Money Affirmations are positive statements that can help you focus on the financial situations you desire and not the ones that you DON'T want. Many successful people believe that whatever you focus on will eventually become reality. So if you focus on the negative areas of your financials, that is what will be attracted to you. However if you focus on the positive, then abundance will flow into your life and surround you.

Here are some examples to get you started:

- I have faith in my divinity and success.
- I attract to me positive events; lessons and experiences that make me become healthy, wealthy and wise.
- I deserve great success and abundance.
- I am optimistic and I believe in abundance.
- I attract to me prosperity, wealth, and happiness.

Take Action

1. Create a list of ten money affirmations, and say them daily out loud, and envision yourself already have them. Make sure you are aware of your emotions. How does it feel?
2. Write these affirmations in your journal daily and record how you feel. Have you attracted any wealth to you? Perhaps new clients? Did a client pay an overdue invoice? Record your findings.

WORK WITH ME

Broke isn't fabulous, but you are. It's (high) time you start making the money you deserve.

I get it. It's frustrating as hell....

Barely scraping by every month – even though you keep telling yourself it's *gotta* get better...

Dodging collection calls, ripping up bills without opening 'em and feeling like a loser every time you crack open your wallet to shiny, maxed out credit cards...

Dealing with overdrafts, late fees and other financial disasters on the reg...

And worst of all, feeling like you never have enough – so you have to give up things you love (hot yoga, skinny lattes, even your dreams) – in order to survive.

The struggle is real.

The good news: It can end right...NOW.

I'm Maria Hinton, money mindset coach and I'm here to show you how to make (mad) money, honey.

Here's what's up: The secret to raking in the dough all comes down to your MONEY MINDSET.

The real reason you're in debt up to your eyeballs isn't because you suck at spreadsheets or budgets. (Okay, that IS part of it, but it's NOT the whole story.) The real reason you can't sell your services isn't because you have shitty offers that nobody really wants.

The amount of money in your life actually all boils down to the WAY YOU THINK about cash. When you have positive thoughts around money, you'll bring more of it into your life.

Tame the way you think and feel about the almighty dollar and you'll start attracting mad cash as easily as you attract late fees. It really is that simple!

And then?

- No more swearing off Starbucks (for the 1000th time) and failing miserably because who REALLY wants to work without caffeine?
- No more holding your breath every time you swipe your ATM card, praying you've got enough to cover the groceries.
- No more feeling guilty you started your own business because you've spending time away from your family and STILL aren't making bank.
- And definitely no more late nights panicking over whether you should drop your passion business like it's hot and head back to a 9 to 5.

Yup - once you show your bucks who's boss by getting your mindset right, ALL of that craziness vanishes.

And I'm not just talking cash, either: Your high-vibe, I'm-the-shiznit energy will flow into every other area of your life.

Translation? Your relationships ooze passion, your business flourishes and hot (personal and professional) opportunities pop up all over the damn place. It's magic.

As a money coach, creator of two thriving businesses and somebody who turned \$200 into \$18K with sheer willpower (when I was 15 years old!), I'm THE go-to girl for entrepreneurs who want sky-high clarity and confidence -- in their money matters and their businesses.

Let's stop struggling and start attracting ridiculously awesome levels of abundance...on the regular.

You feel me? Let's do this shit.

BACK IN THE BLACK – 12 WEEK E-COURSE

Babe, your money mindset is robbing you blind.

You're a wicked smart womenpreneur who knows in her heart she was MADE for this life.

The only problem is, right now, you don't really HAVE a life.

You spend your days slaving away on products and services that don't sell...

You're regularly panicked and woozy over bills that keep piling up, and cash that keeps disappearing like your last clean sock (*WHY DOES THAT ALWAYS HAPPEN?*)...

You have to hold your breath every single time you swipe your credit card (and all that breath-holding? Sure ain't good for the body)...

And doing your books is not only a panic-attack-inducing chore that makes you feel like a total failure, you also feel guilty for all the time this non-profit-producing biz steals from your family...

Yup. You pretty much live in a regular state of panic, guilt and near-burnout. Doesn't sound like much fun, does it?

But it isn't totally your fault.

The truth is you can be the most talented, brilliant, witty business owner on the block, but that doesn't guarantee you a spot in the millionaire's club. (Although it doesn't hurt - let's be real.)

If you really want to bring in the bucks, it's about more than brains. It's about the WAY YOU THINK.

If you wanna make the boatloads of cash like you could (and should), it boils down to three things:

1. **THE OBVIOUS:** having the practical knowledge and tools to manage your money (read: knowing what you have and how you spend it)
2. **THE SLIGHTLY-LESS-OBVIOUS:** knowing what you're passionate about – and having the self-esteem and self-worth you need to feel confident charging good money for your expertise.
3. **AND THE FINAL, OFTEN-MISSING AND NOT-SO-OBVIOUS PIECE:** mastering your money MINDSET - aka the beliefs you have about abundance, wealth and what you deserve.

Your mindset is your business.

Change the way you think about money and you change EVERYTHING.

And that's exactly why I created **Back in the Black**, a hot 12-week group coaching program that teaches you ALL the shiz you need to know to **get your money mindset right and start charging what you're worth with confidence.**

Back in the Black LIVE is a fast-paced group coaching course based on my 8+ years as a financial planner and business owner. It's the exact stuff I used to create two successful businesses and turn \$200 in my backpocket into \$18K in my savings account (when I was 15 years old, no less).

This hella fun course is a game-changer that will help you get clear on your desires and develop the confidence and self-worth you need to make MORE cash, consistently.

THIS IS PERFECT FOR WOMEN ENTREPRENEURS WHO ARE...

- So over living paycheck to paycheck
- Determined as hell to get back in the black and tackle your money blocks head-on, without (too much) fear
- Confident money is just a tool and know that your mindset is a HUGE factor in your success (or lack thereof)
- Tired of “get rich schemes” and programs that make ridiculous promises – and want something that's going to help you get to the ROOT of your problem
- Totally turned on by the idea of hanging out in a community of like-minded, go-gettin' female entrepreneurs

BACK IN THE BLACK VIP

90 days of 1:1 coaching for female entrepreneurs ready to get your money mindset right, build an irresistible brand and start making the cash you deserve.

Here's a radical thought: What if the secret to explosive business success isn't blogging every week or knowing how to use Facebook Ads?

I'm Maria Hinton, money mindset and business clarity coach, and I'm here to tell you something: **When it comes down to it, success is just as much about what you THINK, as what you DO.**

As our girl Oprah says, "When you undervalue what you do, the world will undervalue who you are."

If you don't believe you're worth the cash...

If you're too freaked out to ask for the sale...

If you're intimidated or just plain don't like your clients (no judgement!)

If you've got secret fears that "getting rich" will turn you into Donald Trump (weird combover and all) or "all rich people are greedy, sad sacks of life"...

Well then, babycakes? You won't get the cash you deserve, even if you're the fucking best. (Which, I know you are!)

Yup. You know that phrase "come into money"? It's bullshit. People don't just "come into money," they EARN it – on both an emotional and physical level.

That means tackling your money bullshit. Getting your head out of the sand when it comes to your beliefs. And actually taking the time to look at your business and what's working and what's not.

The good news? If you're ready to EARN your money, then you can kiss maxed out credit cards, crushing debt and post-spending-guilt goodbye – and say hello to more cash, more clients and more confidence.

Back in the Black VIP can help you get there.

What's that?

Every part of the program is based on YOU and YOUR individual needs and every call, every worksheet and every resource is customized to you –so we can get to the root of your money blocks and BUST 'em, faster than you probably ever imagined.
